

ENVIRONMENTAL POLICY – PART 1

Cammack & Wilcox Limited (C&W) acknowledges and recognises that some operations and processes could have a negative impact on the local and national environment. C&W are committed to and shall take care to minimise the negative impacts as far as reasonably practicable and shall operate in accordance with all relevant environmental laws and guidance.

We encourage our customers, suppliers and other business associates to follow the same principles that we do, this ensures a Duty of Care towards future generations and environment (including wildlife).

Our policy statement lists objectives which we are committed to meeting in order to continuously improve within our company.

OBJECTIVES:

- > Comply with current and relevant environmental legislation.
- > Monitor company energy usage.
- > Encourage, support and implement waste reduction and recycling techniques.
- > Aim to continuously improve all types of pollution levels released to the environment and local community, especially through appropriate handling of wastes and site drainage.
- > Purchase products and services, so far as reasonably practicable, that have the least negative impact on the environment.
- > Assess all environmental aspects and impacts resulting from our services.
- > Regularly communicate, consult, listen and respond to employees and members of public regarding all environmental issues.
- > Review and revise this policy at regular intervals to ensure continuous improvement.
